

Dear SahanaMa'am

Good afternoon to you and all the teachers who have been so helpful. In the morning Rishit was not so confident about going to school but we assured him that his teachers will surely sort out his problem today. I waited till he got back from school and shared his experience. He was overwhelmed with the love and compassion shown by you all!! The manner you handled the issue invokes lot of gratitude and respect from our end. Even the thought of providing him with a copy was touching. (we also liked the concept of recycling an old copy).

Now we can proudly say that the new school we chose 8 years ago has grown under your wings and that too in the best manner possible.

As the parent representative of class VI A, whenever consulted on an urgent matter, I advise the parents to write to you and assure that their matters will surely be looked into. It's feels great when I acted in the same way and saw for myself everything happening in the same way I've told them so confidently.

Cheers to you all and loads of good wishes for the South City International school family
