Dear Parents,

Our concerns about safety and security of students have been heightened in view of the recent incidents in the city involving Pool Cars. The Government has laid down the following guidelines which have to be followed by the operators of Pool Cars.

- To keep First Aid Box
- To keep Fire Extinguisher
- To keep 2 window bars for safety
- To keep water facility
- To keep place for school bags
- To keep the door closed while in motion
- To paint the Pool Car with yellow & green
- To write School Cab on both sides of the Pool Car
- To keep the speed limit at 40 KMPH
- To discard the cab if more than 15 years
- To keep all papers ready updated
- To wear uniform with ID Cards
- To keep one attendant in the car
- To keep drivers of more than 5 years driving experience
- To keep full details of the students with the Pool Car
- To wait for the child during drop till escort comes

Since private Pool Car services is not within the jurisdiction of the school authorities, we would request parents to ensure that these set rules have been compiled with before deciding to opt for any Pool Car service for your child.

With warm regards,

John Andrew Bagul

Principal
