Dear Parents,

South City International School is an institution which focuses on the overall development of the child, we encourage all students to participate in co-curricular activities and extracurricular activities. A co-curricular activity essentially gives the students an opportunity to develop particular skills both academic and nonacademic.

Co-curricular activities render a number of values like:

Educational, Psychological, Social, Civic Physical, recreational and Cultural

It enhances the growth of the all-round personality of the students to face any eventuality of the future. Experiences and appreciation gained through these activities assist students during internships and other sponsored programs.

The goal of co-curricular activities is to develop a sense of sportsmanship, leadership, and team spirit. The hidden motive behind all this is to develop self-confidence. Statistics show that students pursuing their hobbies achieve better academic results. Keeping all these aspects in mind we always encourage our students to take interest in these manifold activities.

However students who do not take part in School activities after being shortlisted, will not be permitted to participate in interschool activities, representing the school.

I look forward to your active support and co-operation.

With warm regards,

John Andrew Bagul

Principal
