9th September 2016

Dear Parents,

We regret to bring to your notice that on Thursday, 8th September 2016, a major accident was averted which could have resulted in tragedy. Two students of the Primary Section (Classes Preparatory and One) had been dismissed by their respective teachers and were picked up by their parents. Due to sheer negligence of their parents, the two little girls climbed up on the ramp and were about to jump off the railing. This was immediately noticed by the Management Team who alerted the respective parents. If they went unnoticed, they could have fallen from there resulting in serious head injuries.

Please note that with effect from Wednesday, 14th September 2016, dismissals for all classes will now take place outside the school gates. The process will be streamlined according to the sections and classes.

With your cooperation, we can ensure that our students are always in a safe environment.

Best regards,

John Bagul

Principal
